## NOTICE TO FILE CORRECTED APPLICATION PAPERS

### *Notice of Allowance Mailed*

This application has been accorded an Allowance Date and is being prepared for issuance. The application, however, is incomplete for the reasons below.

Applicant is given 2 months from the date of this Notice within which to correct the informalities indicated below. If the informality pertains to the abstract, specification (including claims) or drawings, the informality must be corrected with an amendment in compliance with 37 CFR 1.121 (or, if the application is a reissue application, 37 CFR 1.173). Such an amendment may be filed after payment of the issue fee if limited to correction of informalities noted herein. See Waiver of 37 CFR 1.312 for Documents Required by the Office of Patent Publication, 1280 Off. Gaz. Patent Office 918 (March 23, 2004). In addition, if the informality is not corrected until after payment of the issue fee, for purposes of 35 U.S.C. 154(b)(1)(iv), "all outstanding requirements" will be considered to have been satisfied when the informality has been corrected. **A failure to reply will result in the application being ABANDONED. This period for reply is NOT extendable under 37 CFR 1.136(a).**

In the application papers filed Aug. 28, 2003:

- The 17 sheets of drawings contain FIGS. 1-14B. The specification includes references to at least one figure that does not exist in the drawing set. The entire specification has not been reviewed due to its length. See, for example, the citation of Figure 15 at the end of paragraph [0127]. This and all other references in the specification to non-existent figures must be amended.
- The specification includes references to Table 1 and Table 2. The 9720-page tabular section at the end of the specification has not been completely reviewed due to its length, but no Table headings have been found. Applicant must provide Table headings or state, in the response to this Notice, where they are located.

*A copy of this notice MUST be returned with the reply. Please address response to
